

MODULE DESCRIPTION

General

School	Geotechnical Sciences
Department	Forest and Natural Environment Sciences

Module Information

Title	Diploma Thesis
Course Code	J.1
Level of Studies	Undergraduate
Teaching Period	Spring
Attendance Type	Diploma Thesis
Prerequisites	None

Orientation	Weekly Hours		Year	Semester	ECTS
	Lectures	Laboratory work			
CORE	-	-	-	S	30

Faculty Instructor

Teaching and Research Staff as supervisor

Type of Module

- Specific Foundation / Core

Mode of Delivery

- Face to face

Digital Module availability

- E-Study Guide
 Departments Website

Language

Erasmus

- The course is offered to exchange programme students

Learning Outcomes

- The purpose of the Diploma Thesis is to acquaint students with the scientific method of conception, design and implementation of scientific research in an appointed subject.
- Upon completion of the dissertation, students are expected to be able to:
- To formulate a research questionnaire and utilizing their knowledge and skills to conduct a scientific study
- Collect and analyze data
- Evaluate their theoretical and methodological competence
- Communicate effectively in writing and orally with a wide audience
- Write scientific / academic texts, indulge in reasoning scientific arguments
- To become familiar with a literature review and formatting bibliography
- To acquire professional autonomy

List of General Competences

- Apply knowledge in practice
- Work autonomously
- Work in teams
- Work in an international context
- Work in an interdisciplinary team
- Respect natural environment
- Advance free, creative and causative thinking

Module Content (Syllabus)

Diploma Thesis is most commonly the student's final examination prior to his Degree. It is a written essay related to topics within the chosen specialization of the programme of study which every student has to write and defend during a short presentation in front of a three-member examination committee. A thesis is written in Greek. The official duration of the Diploma Thesis is one (1) academic semester and is credited with 30 ECTS credits.

Educational Material Types

- Book
- Notes
- Multimedia

Use of Information and Communication Technologies

- Use of ICT in Course Teaching
- Use of ICT in Communication with Students

Module Organization

Please fill in the workload of each course activity

Course Activity	Workload (hours)	ECTS
Lectures		
Laboratory work		
Field Trip/Short Individual Assignments		
Independent Study	750	30
Total	750	30

* 1 ECTS unit corresponds to 25 hours of workload

Student Assessment Methods

Oral Exams

Suggested Bibliography (Eudoxus and additional bibliography)

None
